On Theorizing International Organizations Law: Editors ...

International law, also known as public international law and law of nations, is the set of rules, norms, and standards generally accepted in relations between nations. It establishes normative guidelines and a common conceptual framework to guide states across a broad range of domains, including war, diplomacy, trade, and human rights.

International law - Wikipedia

This article argues that international organizations “as such” can contribute directly to the creation of customary international law for three independent reasons. First, the states establishing an international organization may subjectively intend for that organization to be able to contribute to the creation of customary international law.
