Small Diesel Marine Engines For

When you're buying a new boat, or repowering an existing boat, you may need to decide whether gasoline or diesel is right for your needs. If you're not as familiar with diesels as you are with gas engines, and still think of diesels as smoke-belchers, just be aware that there's been a lot going on over the past several years when it comes to diesel engine technology for marine applications.

Diesel Multi-Purpose Engines for sale | In Stock | eBay

In general, diesel fuel has about 10 percent more energy potential per gallon than gasoline and, generally speaking, diesel engines are more efficient than gasoline engines. As to which is better in a given boat, it will depend on whether the hull is a planing hull, or a displacement or semi-displacement hull; how it's loaded, and how fast it's typically run.
