At the United Nations Sustainable Development Summit on September 25, 2015, world leaders adopted the 2030 Agenda for Sustainable Development, which includes a set of 17 Sustainable Development Goals (SDGs) to end poverty, fight inequality and injustice, and tackle climate change by 2030.

### NGOS LEADING THE WAY ON SUSTAINABLE DEVELOPMENT GOALS

It is a common place to state that non government organizations (NGOs) play important roles both in democratization and in globalization. Many NGOs have maintained programs on the problems of democracy, while others have been the vehicles of civic movements fighting for the democratization of their governments.

### NGOs Facing Democracy and Globalization:

Technology has made globalization possible by opening doors to the worldwide exchange of information. For NGOs, technology enables organizational linkages, constituency mobilization, public information, and fund raising in ways unimaginable in the very recent past. Networking is an aspect of globalization and is a major strategic device for NGOs. Networks

### Challenges of Local NGO Sustainability

In the developing world, philanthropic non-governmental organizations (NGOs) increasingly provide community services, like potable water and improved sanitation, traditionally associated with government. ...

### Non-Governmental Organizations and Globalization - Shaping ...

Sustainable nongovernmental organizations (NGOs) make essential contributions to the environment, society and the sustainability of the world at large. They're responsible for important research, aid, consumer awareness, conservation and so much more, and it's important for you, as a sustainability student, to be aware of the most influential organizations working in sustainability today.

### The 14 Most Influential Sustainability NGOs

Looking at the perspective of donors and NGOs, sustainability of a project simply implies the continuation of project activities and sustenance of project outcomes after the initial/primary grant expires. Most donors are concerned about sustainability aspect of a project and often fund projects which have a well defined sustainability plan in place.

### How to ensure sustainability? - fundsforNGOs

Non-Governmental Organizations (NGOs) and Multinational Corporations As global awareness of certain issues has risen, so too has the number of organizations that aim to deal with them. So-called non-governmental organizations bring together people unaffiliated with the government and can be nationally or globally focused.

### Globalization in the Modern World

Globalization is not an inevitable, irreversible trend. With the destruction of World War I, increasingly integrated global economic structures began to unravel, collapsing during the Great Depression of the early 20th century. Our more recent era of globalization faces two major threats - political unsustainability and terrorism. - YaleGlobal

### Is Globalization Sustainable? | YaleGlobal Online

Sustainability: A New Path to Corporate and NGO Collaborations The convergence of shifting corporate social responsibility trends, untapped NGO value, and pressing development challenges holds tremendous potential for driving social impact and business innovation.

### Sustainability: A New Path to Corporate and NGO ...

UNRISD work on the institutional and social effects of globalization has highlighted the concern that certain international economic, finance and trade organizations are enjoying greater freedom and power, but often without any commensurate increase in social responsibility.

### Globalization and Civil Society: NGO Influence in ...

Globalisation has mostly negative connotations with market forces and free trade as the driver of the economy and with major influence over policy and culture. But as Prof. Simon Bush, professor of Environmental Policy, contends in his inaugural address to Wageningen University & Research on 7 September, globalisation can also have a positive impact on the environment.

### A better global environment through globalisation - WUR

Globalisation & Sustainable Development: The Role of Government, NGO's & the Private Sector. In an extremely inclusive and high level conference, The Global Citizen Forum in association with the Universal Peace Federation (an NGO in special consultative status with the UN ECOSOC) and the United Nations Alliance of Civilizations looks to trace the role of Governments, NGOs and the private Sector in optimizing the execution of the UN Sustainable Development Goals (SDGs).

### Globalisation & Sustainable Development: The Role of ...

Governments in the developing world are often very vulnerable to the demands of companies in the extractive sector, often at the risk of sustainability. How NGOs seek to pressure governments to be aware of the impact of globalization especially in relation to the environment, makes for a worthy field class to examine how NGOs frame issues and how NGOs seek to mobilize international support for their cause.

### **(PDF) NGOs For Environmental Sustainability: The Case of ...**

The increasing need for NGOs' accountability is to mitigate the crisis of sustainability and relevance that plague NGOs globally and Nigeria in particular. It is against this background that this paper empirically investigates what form and for whom NGO Accountability is practised in two selected NGOs in Nigeria.

### **NGO ACCOUNTABILITY AND SUSTAINABLE DEVELOPMENT IN NIGERIA**

The political power of NGOs is not a passing fad but an expression of a new form of consumer politics, which is the result of social, economic and cultural change. By describing a continuum of protest and partnership relations between business and NGOs we can observe a new form of regulation for global business, called civil regulation.

### **Partners in Time? Business, NGOs and Sustainable ...**

In the most basic form; sustainability for civil society organisations entails remaining operational regardless of economic climate conditions and forming diversified funding mechanisms inclusive of local funding sources. T This only merely shifts the onus of funding mechanisms from international sources to domestic sources.
