The duty cycle used by the EPA to measure outboard emissions is weighted 40 percent to operation at idle speed but just six percent at wide-open throttle. The duty cycle is supposed to reflect the way outboards are really used, and surveys show that most outboard boaters spend a lot of time trolling, in no-wake zones, and otherwise puttering ...

### The Outboard Expert: Curing the Honda BF90 Bog - boats.com

I grew up on the water and I've loved boating my entire life. In 2012, I decided to give back to the marine community by creating a way for boaters to order certified pre-owned marine parts online. Stroud's Marine was born to offer incredible prices and unparalleled customer service. We stand behind every single part we sell.
